

Where Do I Live? Geography Worksheet

HearthstonePlan.org

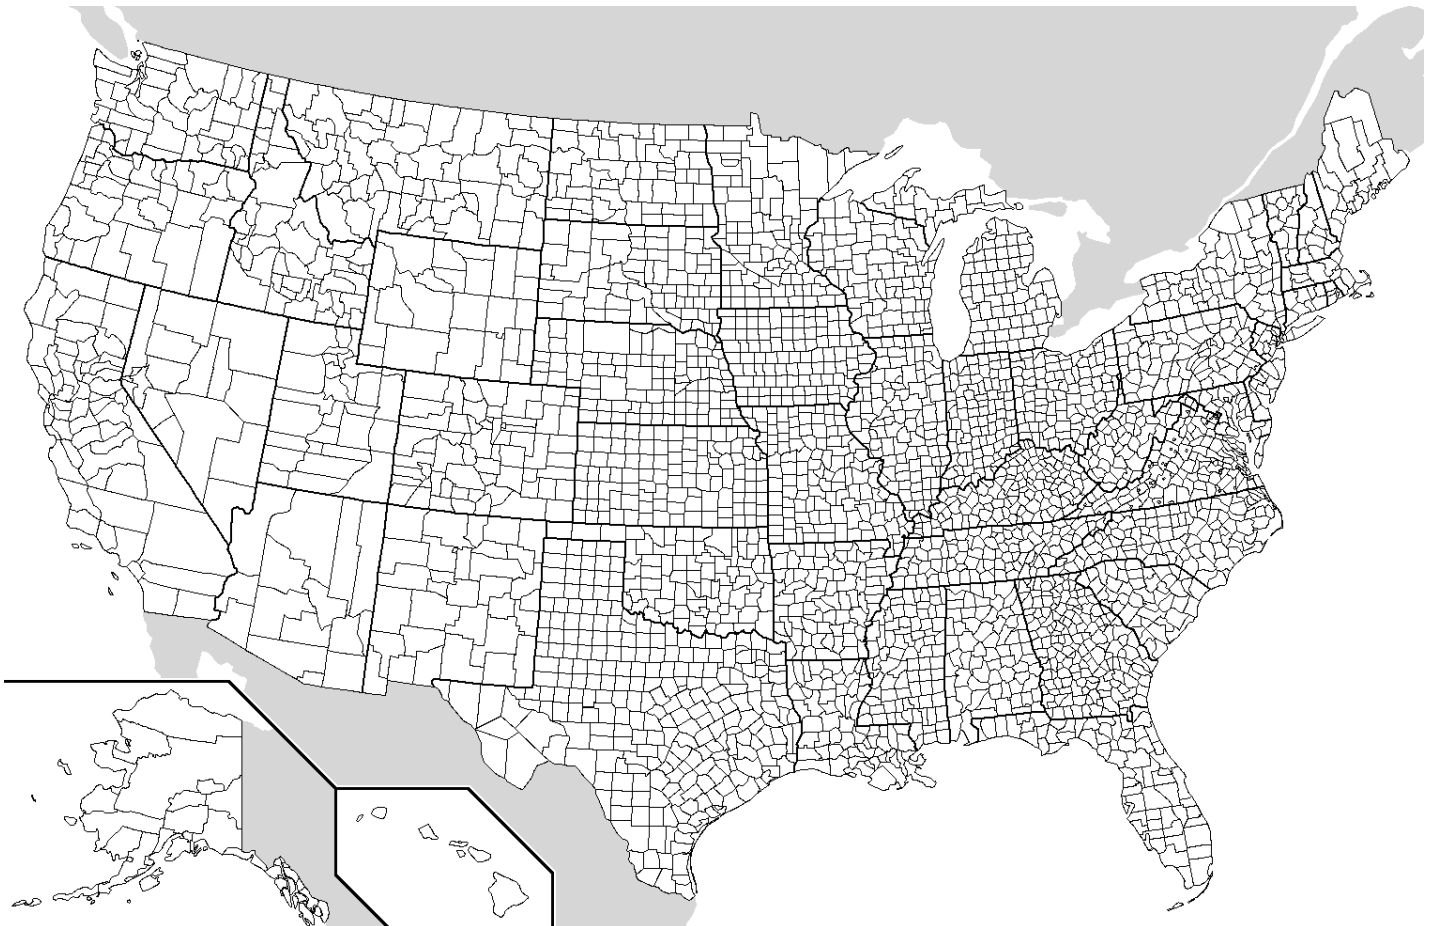

Every city and town is different. It is the community we live in, play in and work in. It is what is familiar to us. But it is important to understand what makes our community unique and how it fits in the world around us. When we learn this, we learn more about our community, ourselves and the people around us. When we research these things we are studying geography. The questions below will help you learn more about your community and how it is different from other places in the state where you live, how your state differs from others and how the United States fits within the other countries and geographic regions of the globe. It is your place in the world. What does your place look like?

What is the name of your town or city? _____

What state do you live in? _____

What geographic features are in your state? List any mountain ranges, bodies of water, etc.

The United States is divided into counties within each state. Below is a map of U.S. counties. What county do you live in? _____ Locate your county on the map. Color it yellow.

Locate your town on a map of the United States, a map of the world, and on a globe. Use the maps below to mark the location of your town. On the U.S. map, color the state you live in yellow.
